WRITTEN COMPETITION REFERENCE MATERIAL

The following written exams will consist of 50 multiple choice questions. There will be a tie breaker question if needed. Listed below are the reference books the each exam:

LAE Knowledge: A written examination concerning our National organization. The questions for this competition are to be drawn from the following material only: National Standing Rules, National Brochure, National History Sheet and National Oath and Symbolism.

Police Management:

Juvenile Justice:

Criminal Law:

Corrections:

FIREARMS COMPETITION:

Below information taken from the national competition policy of ACJA/LAE website.

This standardized course of fire has been adopted by the ACJA-LAE Executive Board as policy for all National and Regional Association - sponsored firearms competitions.

Stage	Distance	Position	# Rounds/Method	Time
1	7 yards	Standing, 2 hands	12 (double-action)	25 seconds
2	15 yards	Standing, 2 hands	12 (double-action)	25 seconds
3	25 yards	Kneeling	6 (single or double action)	
		Barricade, left hand	6 (single or double action)	90 seconds
		Barricade, right hand	6 (single or double action)	
4	25 yards	Standing, 2 hands	6 (double-action)	12 seconds

Total Rounds Fired: 48
Maximum Score Possible: 480 points
Target: NRA B-27 using standard scoring rings

Ammunition: Only factory ammunition is accepted and allowed, remanufactured or factory reloads are permissible. Non-factory reload, magnum or +P+ ammunition is not allowed. Ammunition must be duty or training style (Hollow point, FMJ, round nose, or semi-wadcutter), no competition ammunition will be allowed. Frangible ammunition is allowed at the discretion of the facility sponsoring the competition. All ammunition will be inspected and approved by the Firearm Inspection Officer at the time of the Firearm Inspection. All ammunition must be provided by the competitor unless otherwise noted by the Conference Director. Ammunition will be carried on the person of the competitor. Competitors will not be allowed to set any additional equipment on the ground on the firing line. Magazines and speed-loaders will not be loaded prior to the command to prepare magazines or speed-loaders. Revolver shooters will use speed-loaders to load their firearms at all times, even the initial six rounds for each stage. This practice will assure a uniformity of status across the firing line, and will increase safety.

Magazines: All competitors will be required to have three (3) magazines or three (3) speedloaders that are designed to be used for their firearm. Revolver shooters will use speed-loaders to load their firearms at all times, even the initial six rounds for each stage. This practice will assure a uniformity of status across the firing line, and will increase safety. The command on the line will be to prepare the number of magazines or speedloaders with 6 rounds apiece. These magazines or speedloaders should be carried in an appropriate pouch worn on the belt of the competitor.

Crime Scene Investigation: The Crime Scene Investigation competition is designed to test preliminary investigative skills in a situation which requires that specific actions be taken and procedures be followed. Hotel rooms are used for this event. This will be the site at which a simulated crime has occurred. Participants are to compete as three (3) member teams (NO EXCEPTIONS). Competitors should have signed up as a team with a specific competition time at registration. Teams may consist of individuals from more than one chapter, but they must declare a chapter which they will represent for awards presentations. Teams will be sent to the scene of the crime in their time slot. Each team will have a minimum of fifteen minutes to complete its investigation. The team will then go into a controlled environment to prepare their report with a minimum time of 45 minutes to do so. This will be a narrative report, no local report forms will be used. Judging criteria to be over the type and amount of evidence discovered, how it was processed and whether the appropriate actions were taken, i.e., photos, fingerprints and interview questions asked.

Physical Agility: The physical agility competition is a course similar to those required at a police training academy, such as long runs, negotiating obstacles and scaling walls. Competitors age/sex categories are: male 25 years and under; male 26 to 35 years; male 36 years and older; female 25 years and under; female 26 to 35 years; female 36 years and older. The person with the shortest total elapsed time in running the course in their category is the winner for that category. There is no overall winner. Penalties can be assessed for missing obstacles, taking "short cuts" and etc.

A liability waiver must be signed to compete in firearm and physical agility events. Please be aware the courses are designed with safety in mind.
